

Carbon RX Expands Global Marketing Expertise

Regina, Saskatchewan – November 17, 2022 – **Carbon RX Inc. ("Carbon RX")** is proud to announce the appointment of Karlee Vorrieter as Chief of Staff.

Ms. Vorrieter has several years experience in domestic and international marketing as the Marketing and Communications Manager at Canadian Western Agribition, Canada's largest livestock show and agriculture marketplace. Her work played a key role in helping Canadian farmers, ranchers, and small line agriculture manufacturers access domestic and international markets.

Karlee's previous work experience also has indigenous ties. "One of my favourite projects was always the Indigenous Agriculture Summit. It was an opportunity to feature First Nations success stories and share best practices with communities across Canada," says Ms. Vorrieter.

Karlee is a former Academic All Canadian athlete and is now an active volunteer and coach within the community. As Chief of Staff, Karlee's experience as a formal leader in business and sport will be a huge asset in the strategic business development of Carbon RX.

"International demand for Canadian-based carbon credits continues to grow. Karlee's experience branding Canadian agriculture and food products for international audiences comes at the perfect time. We couldn't be more excited to add her skills and experience to the Carbon RX team," Marty Seymour, Chief Operating Officer, Carbon RX.

About Carbon RX

Carbon RX, located in Regina, Saskatchewan, originates, certifies, digitizes, and streams carbon credits in agriculture, forestry, mining, and energy. The organization is anchored with over 15 years of carbon capture technical expertise servicing both domestic and international high fidelity carbon markets.

Forward Looking Statements

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation, which are based upon Delta CleanTech Inc. ("Delta") and Carbon RX (Delta's subsidiary), current internal expectations, estimates, projections, assumptions and beliefs and views of future events. Forward-looking information can be identified by the use of forward-looking terminology such as "expect", "likely", "may", "will", "should", "intend", "anticipate", "potential", "proposed", "estimate" and other similar words, including negative and grammatical variations thereof, or statements that certain events or conditions "may", "would" or "will" happen, or by discussions of strategy. Forward-looking information include estimates, plans, expectations, opinions, forecasts, projections, targets, guidance, or other statements that are not statements of fact. Specifically, this news release contains forward looking information relating to the operations and growth of the business of Carbon RX, the ability to continue to build on existing and future partnerships and collaborations between Carbon RX and First Nations, and the ability to effectively reduce carbon dioxide and methane emissions.
