

Carbon RX Set to Host the 3rd Annual Global First Nations Carbon Summit

Regina, SK – May 16, 2024 – Carbon RX Inc. ("Carbon RX") is proud to announce the return of the Global First Nations Carbon Summit for its third consecutive year. This event is scheduled for September 24, 2024, at the Hotel Saskatchewan located on Treaty 4 Territory, in Regina, Saskatchewan.

The Global First Nations Carbon Summit has rapidly become a cornerstone event, providing a vital platform for First Nations voices. This Summit fosters essential dialogue, collaboration, and innovative approaches to carbon management, all while emphasizing the unique perspectives and contributions of First Nation communities in addressing global climate challenges.

This year's summit seeks to build upon the rich discussions from last year's event, which included comprehensive introductions to carbon markets, strategies for reducing and capturing carbon emissions, and the utilization of carbon as a powerful financial instrument to foster economic activity and enhance environmental sovereignty within First Nations communities.

"People are generally curious about carbon and the carbon markets," stated Carson Sinclair, Director of Origination and Marketing of Carbon RX. "The Summit helps address the knowledge gap within the rights holders of the land. The greatest achievement of this event continues to be to educate, to inform, and bring the Carbon and First Nations communities together."

Attendees will include a diverse group of stakeholders, from First Nations Chiefs and Councillors to representatives from government, academia, and various industry sectors such as agriculture, forestry, and energy. The Summit is designed to be a dynamic and enriching experience for all involved, offering both foundational carbon education and advanced discussions tailored to the needs and interests of First Nations communities.

Registration details and the full conference agenda are available at www.thecarbonsummit.com.

About Carbon RX

Headquartered on Treaty 4 Territory in Regina, SK, Carbon RX specializes in the origination and streaming of carbon credits. Backed by a team of agriculture, forestry, and hydrocarbon experts, Carbon RX provides high-fidelity carbon credits to the international voluntary carbon market, ultimately aiding Canada in the race to net-zero emissions.
